

Major Thoroughfare Plan Subcommittee

CHARGE 1: Are there any amendments that need to be made to the Existing Major Thoroughfare Plan as part of the Long Range Plan Update?

CHARGE 2: Is a new arterial road needed to extend East Republic Road from Glenstone Avenue to Highway J? And if so, is there a connection that is more appropriate (FR 170, FR 164 US 60 outer road, etc)

Questions to Consider:

- 1) Is the spacing appropriate for a new arterial?
- 2) Will a new arterial be needed to support future traffic demands?

September Technical Committee Motion:

The Farm Road 170/Republic Road extension shall be considered separately from the update of the Major Thoroughfare Plan, taking the time necessary to fully study the issue, while still taking into account information used to prepare the Major Thoroughfare Plan as a whole with the understanding that the Major Thoroughfare Subcommittee shall not make recommendations beyond OTO's mission.

Process:
