Transportation Planning Committee Members:

While I am compiling our discussion from Monday, I thought I might point out some items of interest that have been posted on the [Springfield Strategic Plan Website](#). In addition to the listening tours the City conducted, they have also sought input from what has been called "The Next Generation." This included a listening tour with K-12 students, as well as a competition for Springfield's Long-Range future.

Please take a moment to review these reports while considering our objectives for the plan.
