TECHNICAL PLANNING COMMITTEE AGENDA 8/17/2022; ITEM I.C.

June 15, 2022 Meeting Minutes

Ozarks Transportation Organization (Springfield, MO Area MPO)

AGENDA DESCRIPTION:

Attached for Committee member review are the minutes from the June 15, 2022 Technical Planning Committee meeting. Please review these minutes prior to the meeting and note any changes that need to be made. The Chair will ask during the meeting if any member has any amendments to the attached minutes.

TECHNICAL PLANNING COMMITTEE ACTION REQUESTED:

A member of the Technical Planning Committee is requested to make one of the following motions:

"Move to approve the Technical Planning Committee June 15, 2022 meeting minutes."

OR

"Move to approve the Technical Planning Committee meeting minutes with the following corrections..."

OZARKS TRANSPORTATION ORGANIZATION TECHNICAL PLANNING COMMITTEE MEETING MINUTES JUNE 15, 2022

The Technical Planning Committee of the Ozarks Transportation Organization met at its scheduled time in person. A quorum was declared present, and the meeting was called to order at approximately 1:35 p.m. by Vice-Chairman Jeff Roussell.

The following members were present:

| Mr. Garrett Brickner (a), City of Republic | Mr. John McCart (a), City of Ozark |
|-------------------------------------------------|---------------------------------------------------|
| Ms. Paula Brookshire (a), City of Springfield | Mr. John Montgomery (a), Ozark Greenways |
| Mr. Peter Bryant (a), City of Willard/Strafford | Mr. Frank Miller, MoDOT |
| Mr. Matt Crawford, City Utilities Transit | Mr. Jeff Roussell, City of Nixa (Vice-Chair) |
| Mr. Martin Gugel, City of Springfield | Ms. Beth Schaller, MoDOT |
| Mr. Kirk Juranas, City of Springfield | Mr. David Schaumburg, Springfield-Branson Airport |
| Mr. Joel Keller (a), Greene County | Mr. Todd Wiesehan, Christian County |

(a) Denotes alternate given voting privileges as a substitute when voting member not present

The following members were not present:

| Mr. Rick Artman, Greene County | Mr. Mark Schenkelberg, FAA |
|------------------------------------------------|------------------------------------------------|
| Mr. Chris Boone, City of Strafford | Mr. Travis Shaw, Springfield Public Schools |
| Ms. Emily Denniston, Spfld Chamber of Commerce | Ms. Aishwarya Shrestha, SMCOG |
| Mr. Adam Humphrey, Greene County | Mr. Tommy VanHorn, City of Battlefield (Chair) |
| Mr. John Matthews, MSU | Ms. Janet Vomund, MoDOT |
| Mr. Ahmad Mokhtee, FTA | Mr. Jeremy Wegner, BNSF |
| Ms. Britni O'Connor, MoDOT | |

Others present were: Ms. Sonya Anderson, Senator Blunt's Office; Mr. Tom Dancey, City of Springfield; Ms. Stacy Reese, MoDOT; Mr. David Faucett, Ms. Sara Fields, Ms. Natasha Longpine, Ms. Libby Robinson, Mr. JD Stevenson, Ms. Nicole Stokes, and Mr. Andy Thomason, Ozarks Transportation Organization.

I. <u>Administration</u>

A. Introductions

Vice-Chairman Roussell welcomed everyone and requested self-introductions be made.

A quorum was present.

B. Approval of the Technical Planning Committee Meeting Agenda

Ms. Schaller made a motion to approve the Technical Planning Committee Meeting Agenda for June 15, 2022. Mr. Wiesehan seconded the motion. The motion passed.

C. Approval of the April 20, 2022 Meeting Minutes

Mr. Gugel made a motion to approve the minutes from the April 20, 2022 Technical Planning Committee Meeting. Ms. Schaller seconded the motion. The motion passed.

D. Public Comment Period for All Agenda Items

Vice-Chairman Roussell advised there were public comments included in the packet. Vice-Chairman Roussell asked for comments or questions.

E. Staff Report

Ms. Fields stated staff have been evaluating how to best capitalize on the Bipartisan Infrastructure Law and bring extra money to the OTO MPO area. OTO assisted the City of Republic with a RAISE Grant for Highway MM and assisted MoDOT with an INFRA/Mega Grant for I-44.

The Bridge NOFO came out Friday and staff is looking through it. Safe Streets for All is another program staff is evaluating and is on the meeting agenda to be highlighted.

Staff sent an email to member jurisdictions about the MoDOT Bridge Program, combining the all-system bridge with the bridge investment program which cities and counties are eligible for. The deadline is July 22nd and will be announced September 16th.

The Governor's Cost Share made it into the budget but has not been signed yet. The deadline for the MoDOT Cost Share Program is July 22nd. The next application deadline is October 7th.

Staff is continuing to work on the Chadwick Flyer Trail and have a consultant now for the portion along the CU property. Construction is still set for 2023. The City of Ozark has their portion just north of Highway 14 under construction and is just starting paperwork on the third piece of the trail at Tracker Marine.

TAP funding has doubled and there is Carbon Reduction funding. Staff is working to understand the new law and the changes.

F. Legislative Reports

Ms. Anderson, with Senator Blunt's Office, shared Senator Blunt has been working on appropriations and Congressionally Directed Spending (CDS) requests (also known as earmarks). Senator Blunt submitted a letter of support for the RAISE Grant OTO submitted for the MM Project. The Senator has also submitted a letter of support for the I-44 INFRA Grant.

G. MoDOT Report

Mr. Miller stated the Bridge Program, or Off System Program, information is on the MoDOT website. It also has a list of eligible bridges.

Ms. Schaller shared the James River Freeway has an estimated completion date of July 4th. MoDOT has a lot of corridor studies currently going on with the City of Springfield along with ADA discussions. Outside of the OTO MPO area, the demolition of the 174 Overpass Bridge toward Mt. Vernon is underway.

Ms. Reese stated the deadline for comments on the Draft STIP is this Friday, June 17th, with the final approval from the Highway Commission in July.

II. New Business:

A. Destination 2045 Amendment Number 2

Ms. Longpine shared that Springfield requested a change to the Major Thoroughfare Plan. The request was to remove a proposed collector in the 1800 block of N. West Bypass, between Eldon and West Bypass. This request was approved by the Springfield City Council at their regular meeting on May 2, 2022.

Mr. Juranas made a motion to recommend the Board of Directors approve *Destination 2045* Amendment 2. Ms. Schaller seconded the motion. The motion passed unanimously.

B. Draft 2023-2027 STIP

Mr. Miller reported each year, the Missouri Department of Transportation adopts a Statewide Transportation Improvement Program (STIP). The STIP is a listing of projects that will be completed over the next five years. The FY 2023-2027 STIP will be adopted at the July 6, 2022 Missouri Highways and Transportation Commission meeting. The OTO Technical Planning Committee and Board of Directors worked to prioritize projects for recommendation to be placed in the STIP. The projects listed in the STIP for the OTO Area (SW Urban) will be incorporated into the Draft OTO 2023-2026 Transportation Improvement Program. Mr. Miller highlighted projects included in the Draft 2023-2027 STIP.

This was informational only. No action was required.

C. Draft FY 2023-2026 Transportation Improvement Program

Ms. Longpine stated that OTO annually develops a four-year Transportation Improvement Program (TIP) document that provides details on proposed transportation improvements, including anticipated costs, fund sources, and expected project phasing over each of the four years of the TIP. The TIP includes a status report for each project contained in the previous year's TIP, a financial constraint analysis, and description of the public involvement process. The MoDOT Statewide Transportation Improvement Program has been incorporated into the Draft TIP. Also included are FTA 5310 Projects (vehicles for human service agencies serving the disabled and elderly), FTA 5339 projects (transit capital), and transit operations. City Utilities Transit is currently the only eligible recipient for FTA 5307 (Transit Operating Assistance and Preventative Maintenance). Ms. Longpine gave a review of the TIP.

Mr. Wiesehan made a motion to recommend the Board of Directors approve the FY 2023-2026 Transportation Improvement Program. Mr. Montgomery seconded the motion. The motion passed unanimously.

D. 2024-2028 Draft STIP Prioritization Criteria

Ms. Fields shared that the STIP Prioritization Criteria is used to score projects as the starting point for project recommendations for the STIP. Ms. Fields highlighted the Draft Prioritization Glossary which will define the criteria to be used for the next round of prioritization. The 2024-2028 STIP deadline for the scoring and final prioritization to be completed is the October Technical Planning Committee meeting and the November Board of Directors meeting. Several updates were made to the criteria in prior years and staff is not recommending any specific changes this year. Following the Board approval of the Prioritization Criteria, the projects will be scored and special TPC meetings will be held to review the scores and prioritize projects.

Mr. Gugel made a motion to recommend the Board of Directors approve the STIP Prioritization Criteria as presented. Mr. Bryant seconded the motion. The motion passed unanimously.

E. FY 2024-2028 Draft STIP Prioritization Project List

Ms. Fields stated the OTO maintains a list of projects to be prioritized for the MoDOT Statewide Transportation Improvement Program. The list is developed through input by member jurisdictions as well as requests received through public input to the OTO. During June and July, OTO staff will score the proposed list of projects for prioritization consideration by the Prioritization Subcommittee in July and August. Project scores for all projects are revised each year. Ms. Fields highlighted the list for the Board.

This was informational only. No action was required.

F. Safe Streets and Roads for All

Ms. Longpine stated the Bipartisan Infrastructure Law (BIL) established the new Safe Streets and Roads for All (SS4A) discretionary program with \$5 billion in appropriated funds over the next 5 years. In fiscal year 2022 (FY22), up to \$1 billion is available. The SS4A program funds regional, local, and Tribal initiatives through grants to prevent roadway deaths and serious injuries. Ms. Longpine reviewed the program details and requirements for the Committee. OTO is considering applying to develop a comprehensive safety action plan for the region, so that members can apply for implementation grants based on the plan in future funding rounds. TPC members discussed using a regional strategy through OTO to apply for the SS4A.

This was informational only. No action was required.

III. Other Business

A. Technical Planning Committee Member Announcements

Mr. Crawford shared CU has a Transit Optimization Study out for bid. The study will go out for public comment to find out if changes are needed to the network. CU is celebrating Communities in Motion week.

Mr. Roussell stated the City of Nixa is opening bids for its North/South Corridor.

B. Transportation Issues for Technical Planning Committee Member Review

There were no transportation issues for Committee review.

C. Articles for Technical Planning Committee Member Information

Vice-Chair Roussell noted there were articles of interest included in the Agenda Packet.

IV. Adjournment

Mr. Juranas moved to adjourn the meeting. Mr. Bryant seconded the motion. The motion passed.

| Tommy VanHorn | | |
|-------------------|--|--|
| | | |

The meeting adjourned at approximately 2:33 p.m.

TAB 2

TECHNICAL PLANNING COMMITTEE AGENDA 8/17/2022; ITEM I.D.

Public Comment

Ozarks Transportation Organization (Springfield, MO Area MPO)

AGENDA DESCRIPTION:

Attached for Committee member review are Public Comments for the time frame between June 15, 2022 and August 10, 2022.

TECHNICAL PLANNING COMMITTEE ACTION REQUESTED:

This item is informational only, no action is required.

Area of concern: Chestnut Expressway & Cedarbrook Light Timing

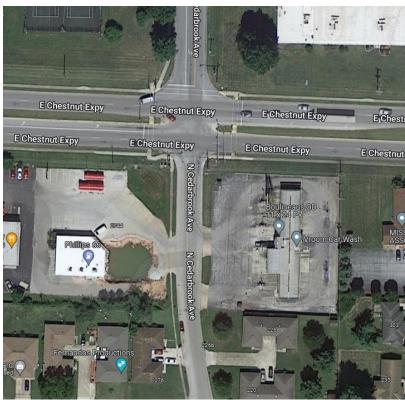

City/County of concern: Springfield/Greene County

Date received: 06/09/2022 Received through: Phone Call

Contact Name: Sandi Contact Email/Ph #: 209-648-8712

Comment: Caller stated they called the City of Springfield who told them to call MoDOT who told them to call OTO. Caller has a gas station at the corner of Chestnut Expressway and Cedarbrook. Customers have complained of how slow the left turn light timing is traveling WB on Chestnut to turn left onto Cedarbrook. Caller asked how long it would take to change the timing.

OTO Response: Told caller I would speak with OTO staff and find out the process of requesting a timing change.

Area of concern: Public Transportation

City/County of concern: Springfield/Greene County

Contact Name: Cathy Primm Contact Email/Ph #: cathykprimm@gmail.com

Email

I am lucky enough to have a vehicle. However, we recently downsized to one vehicle and I find the bus system here is not all that user friendly. We need better public transport - more regular busses and more bus lines - and preferably, electric busses (which would improve our air quality and identify Springfield as a forward looking community). There is a movement in Springfield to make the busses free. I think this is an excellent idea - many of those who must ride the bus daily to work or elsewhere are people who have limited incomes. Free bus fares would help this essential part (many work in the service industry and/or factories) of our economy immensely.

OTO Response: Thank you for your comment. Public input is vital to the planning process. This information will be shared with City Utilities, our Technical Planning Committee and our Board of Directors.

Area of concern: Unknown

City/County of concern: Unknown

Date received: 06/17/2022 Received through: Map-A-Concern (OTO website)

Area of concern: Passenger rail service from Springfield to KC/St. Louis

City/County of concern: OTO MPO Area

Date received: 06/23/2022 Received through: email

Contact Name: Diane Wood Contact Email/Ph #: dawzach@yahoo.com

Email

When, when are we getting passenger rail service for SW Missouri? When will I be able to get on a train in Springfield and travel by rail to Kansas City, or St. Louis, or Joplin,? I am 70 and I have been asking about this for years....

When? Why is this such a problem? I would think that someone, somewhere in MODOT or some other MO government office would recognize that this is a real need for our state. Especially in view of climate change. Yes, we need to maintain the roads, but we need PASSENGER RAIL SERVICE FOR THE WHOLE STATE, not just the Kansas City-St. Louis corridor.

OTO Response: Thank you for your comment. Public input is vital to the planning process. This information will be shared with our Technical Planning Committee and our Board of Directors. Included below is a link to a MoDOT report on a proposed operation of passenger train service between St. Louis and Southwest Missouri.

Area of concern: Glenstone & Republic Road Roundabout

City/County of concern: Springfield/Greene County

Date received: 06/30/2022 Received by: Phone

Contact Name: Jackie Barger Contact Email/Ph #: dayna.aust@att.net

Caller Comment

Mr. Barger stated heading eastbound on Republic Road, signage is not clear on how to get to east 60/JRF, which gets to 65/Ozark. He also said he appreciated all that we do. Ms. Longpine spoke with Mr. Barger letting him know that he can now turn left at Harvard or go completely around the roundabout. He appreciated the advice, and thought that the signage should be more obvious, since intuition says to go through the Harvard intersection and up to the bridge at Glenstone over 60, which requires turning around somewhere north of there to head back south on to the on-ramp.

Area of concern: I-44 Pavement Resurfacing

TECHNICAL PLANNING COMMITTEE AGENDA 8/17/2022; ITEM II.A.

Annual Listing of Obligated Projects (ALOP)

Ozarks Transportation Organization (Springfield, MO Area MPO)

AGENDA DESCRIPTION:

Ozarks Transportation Organization is required by federal law to publish an Annual Listing of Obligated Projects:

§ 450.334 Annual listing of obligated projects.

- (a) In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO(s) shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.
- (b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.
- (c) The listing shall be published or otherwise made available in accordance with the MPO(s) public participation criteria for the TIP.

The Ozarks Transportation Organization Program Year 2022 Annual Listing of Obligated Projects is available in the Agenda for member review. Please note that Program Year 2022 includes the time period from July 1, 2021 to June 30, 2022.

Please note that this is required to be published by September 28, 2022.

TECHNICAL PLANNING COMMITTEE ACTION REQUESTED:

A member of the Technical Planning Committee is requested to make one of the following motions:

"Move to recommend that the Board of Directors accept of the Annual Listing of Obligated Projects."

OR

"Move to recommend that the Board of Directors accept of the Annual Listing of Obligated Projects with the following corrections..."

FY 2022 Annual Listing of Obligated Projects

OZARKS TRANSPORTATION ORGANIZATION

A METROPOLITAN PLANNING ORGANIZATION

Introduction

Each year, the Ozarks Transportation Organization develops a list of all funding obligated during the preceding program year, which runs from July 1 to June 30. This is known as the Annual Listing of Obligated Projects (ALOP). An obligation is a commitment of the federal government's promise to pay for the federal share of a project's eligible cost. This commitment occurs when the project is approved and the project agreement is executed. Obligation is a key step in financing and obligated funds are considered "used" even though no cash is transferred.

Annual Listing of Obligated Projects (ALOP)

The ALOP is a requirement of metropolitan planning areas, per § 450.334:

- (a) In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO(s) shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.
- (b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.
- (c) The listing shall be published or otherwise made available in accordance with the MPO(s) public participation criteria for the TIP.

TIP (Transportation Improvement Program)

The TIP is a financially constrained four-year program outlining the most immediate implementation priorities for area transportation projects, carrying out the goals and vision of *Transportation 2040*, the OTO's long range transportation plan. It serves to allocate limited financial resources among the various transportation needs of the community and to program the expenditure of federal, state, and local transportation funds. In order to receive federal highway or transit funds, a project must be included in the TIP. The TIP is developed through a collaborative process in which each jurisdiction or federal recipient of transportation funds is given the opportunity to submit projects to be considered for placement in the TIP. No project can receive federal funds unless it appears in the TIP.

Ozarks Transportation Organization (OTO)

The Ozarks Transportation Organization (OTO) is the designated Metropolitan Planning Organization for the Springfield, Missouri Urbanized Area. Metropolitan planning organizations serve to conduct and lead a continuing, cooperative, and comprehensive transportation planning process. In an effort to make the transportation planning process cooperative and collaborative, elected officials from jurisdictions within the urban area and major transportation providers are members of the Ozarks Transportation Organization. The mission of the OTO is to provide a forum for cooperative decision-making in support of an excellent regional transportation system.

The Report

As stated in federal law, the ALOP has a number of required elements. Below is an explanation of each column included in the report.

PROJECT NO

This is the Federal Number assigned to a project when it is entered into the federal financial management system.

JOB NO

This is an ID assigned by MoDOT (Missouri Department of Transportation) for tracking of projects at the state level.

PROJECT DESCRIPTION

Contains a brief description of the project.

COUNTY

County where project is to take place.

SPONSOR

This references the agency responsible for implementing the project.

TIP NUMBER

The OTO assigns each project a unique identifier to track it through the local process. This number is often assigned before the state and federal IDs are known.

TIP YFARS

The TIP is developed annually with a four-year time horizon. This column indicates each edition of the TIP where the project appears. An additional qualifier, like "A1" or "AM2," indicates if the project was part of an amendment or administrative modification to the TIP.

PROGRAMMED YEAR

This lists the actual years when funding was planned to be obligated for the project. The (AC) appearing after certain years indicates the expected year of advance construction conversion. MoDOT uses a federal funding tool called advance construction to maximize the receipt of federal funds and provide greater flexibility/efficiency in matching federal-aid categories to individual projects. Advance Construction (AC) is an innovative finance funding technique, which allows states to initiate a project using non-federal funds, while preserving eligibility for future federal-aid. AC does not provide additional federal funding, but simply changes the timing of receipts by allowing states to construct projects with state or local money and then later seek federal-aid reimbursement.

PREVIOUSLY PROGRAMMED FEDERAL FUNDS

These are the funds that were scheduled to be obligated during or prior to program year 2022.

FUTURE PROGRAMMED FEDERAL FUNDS

These are funds that are estimated to be obligated after program year 2022.

PROGRAM CODE

The program code is associated with the category of federal funding that was obligated for the project. The program code changes with each surface transportation bill and extension. A search of this document (http://www.fhwa.dot.gov/federalaid/projects.cfm) will provide information on the source of funding for each program code. As a quick reference, the first letter in the code is related to a particular surface transportation bill. Funding from the FAST Act, the most recent bill, starts with the letter "Z," MAP-21, starts with the letter "M," while funding that starts with the letter "L" is from SAFETEA-LU. Some funding is still shown for some older projects as having come from TEA-21 (Q) and from an extension of TEA-21 (H). To learn more about the current surface transportation bill, the FAST Act, click here - http://www.fhwa.dot.gov/fastact/. The U.S. DOT website is a good source of information on federal funding programs.

TRANSACTION DATE

This is the date that funding was obligated during the 2022 program year.

FEDERAL FUNDING CHANGE

This is the amount of money either obligated or de-obligated during the 2022 program year. Values shown in the positive are obligations and values shown in the (negative) are de-obligations. Funding is often de-obligated at the end of a project if costs were less than expected. Zero values may be shown for projects that were newly created or closed out in FY 2022, even if funding itself was not obligated.

PREVIOUS ALOP(S) FUNDING CHANGE

This shows all obligations prior to the 2022 program year. Current and past funding changes are shown by Program Code.

REMAINING FUTURE FEDERAL FUNDS

This shows how much money is left to obligate based on the amount of funding programmed in the OTO Transportation Improvement Program. If the project is complete, the amount is left at \$0.00, which is also the case when the obligated amount has maxed the available programmed funding. Generally, this number is determined by subtracting all obligated funding from all programmed funds, regardless of the year in which funding was programmed.

| PROJECT NO | JOB NO | PROJECT DESCRIPTION | COUNTY | SPONSOR | TIP NUMBER | TIP YEARS | PROGRAMMED YEAR* | PREVIOUSLY PROGRAMMED FEDERAL FUNDS | FUTURE PROGRAMMED FEDERAL FUNDS | PROGRAM CODE | TRANS DATE | FED FUND CHANGE | PREVIOUS ALOP(S) FUNDING CHANGE | REMAINING FEDERAL FUNDS |

TECHNICAL PLANNING COMMITTEE AGENDA 8/17/2022; ITEM II.B.

Amendment Number One to the FY 2023-2026 Transportation Improvement Program

Ozarks Transportation Organization (Springfield, MO Area MPO)

AGENDA DESCRIPTION:

There are two items included as part of Amendment Number One to the FY 2023-2026 Transportation Improvement Program.

- *Revised* Christian County Truss Bridge Bundle (CC2304-23A1)
 Christian County is requesting to add local funds and two additional bridges to the Green Bridge project to create the Christian County Truss Bridge Bundle, with a revised total programmed amount of \$11,742,089.
- *New* Interstate Striping (MO2310-23A1)
 MoDOT is requesting to add a project for striping on I-44 from Route 360 to 2 miles east of Route 125, with a programmed amount of \$264,000.

TECHNICAL PLANNING COMMITTEE ACTION REQUESTED:

A member of the Technical Planning Committee is requested to make one of the following motions:

"Move to recommend that the Board of Directors approve Amendment 1 to the FY 2023-2026 Transportation Improvement Program."

OR

"Move to recommend the Board of Directors approve Amendment 1 to the FY 2023-2026 Transportation Improvement Program, with these changes..."

Project Overview

2 Projects Listed

CC2304-23A1 - CHRISTIAN COUNTY TRUSS BRIDGE BUNDLE

TECHNICAL PLANNING COMMITTEE AGENDA 8/17/2022; ITEM II.C.

FY 2023 Unified Planning Work Program (UPWP) Amendment 1

Ozarks Transportation Organization (Springfield, MO Area MPO)

AGENDA DESCRIPTION:

OTO is required on an annual basis to prepare a Unified Planning Work Program (UPWP), which includes plans and programs the MPO will undertake during the fiscal year. The UPWP contains additional items from the Operational budget such as In-Kind match expenses. The UPWP budget is included in the annual contract with MoDOT for OTO operating expenses. An amendment is proposed to the FY 2023 UPWP Budget.

Explanation of requested changes:

Revenue

- **Surface Transportation Block Grant** (STBG) increase of \$50,782 to \$231,525. The OTO is increasing the amount of eligible STBG Revenue to fund additional studies in the OTO budget.
- Consolidated Planning Grant (CPG) increase of \$36,378 to \$925,953. The OTO is reimbursed for 80% of the budgeted expenses. The increased expense is resulting in an increase in reimbursement.

Expense

- Telephone and Internet increase of \$1,800 for increase in monthly internet bill.
- **Computer Upgrades/Equipment** increase of \$2,000 for additional equipment and increased cost of computer equipment.
- IT Maintenance Contract decrease of \$1,200 for new IT Managed Service Provider contract.
- **Transportation Consulting Services** increase of \$106,351 for the following:
 - City of Strafford Study (increase) \$60,000
 - City of Willard Trail Underpass Study \$5,000 to \$15,000
 - City of Battlefield FF Study (brought forward from FY 2022) \$35,000
 - FF Extension Study \$50,000
 - Other studies and grant data as needed \$46,351

In addition to the UPWP budget the following changes were made to the UPWP document:

- Increased the amount of the 2.5% Safe and Accessible Transportation Options to \$29,082 under Task 5 on page 22.
- Increased the amount of FY 2023 CPG Expected Allocation to \$772,615 on page 35.
- Updated the Major Activities and Task table estimated costs found on page 10 and 11.
- Updated the financial tables found on pages 33-37.

EXECUTIVE COMMITTEE ACTION TAKEN:

At its regularly scheduled meeting on August 10, 2022, the Executive Committee revised the proposed FY 2023 UPWP Amendment One. The Executive Committee recommended that the Board of Directors approve the revised FY 2023 UPWP Amendment One.

TECHNICAL PLANNING COMMITTEE ACTION REQUESTED

A member of the Technical Planning Committee is requested to make one of the following motions:

"Move to recommend that the Board of Directors approve FY 2023 UPWP Amendment One as revised by the Executive Committee."

OR

"Move to recommend the following..."

Major Activities and Tasks

The Unified Planning Work Program is divided into tasks and work elements identifying how OTO's time and expenses will be allocated over the fiscal year. The following pages outline each major activity and task, responsible agencies, schedule, resulting products, and proposed funding. Funding is summarized by source and federal share, with matching funds identified. Additional details on prior accomplishments can be found in the FY 2022 UPWP Year-End Report, which will be incorporated upon completion in July 2022.

| Tasks | Estimated Total Cost | Responsible Agency | Consultant Contract |

| TOTAL | \$1,656,848 | | |

Task 5 – Safe and Accessible Transportation Options

Purpose

Incorporate planning processes that ensure the safe and adequate accommodation of all users of the transportation system, including pedestrians, bicyclists, public transportation users, children, older individuals, individuals with disabilities, motorists, and freight vehicles. The OTO currently works towards safe and accessible transportation options as demonstrated by work tasks throughout the UPWP. This section contains additional tasks for developing safe and accessible transportation options. This task is utilizing the 2.5% (\$29,082) set aside of Safe and Accessible Transportation Options Planning funds for the OTO.

Work Elements

5.1 Transportation Options Best Practices

• Research best practices around active transportation, complete streets, and mobility options, as well as provide support as needed to member jurisdictions on these topics.

5.2 Jurisdiction Project Planning

• Work with member jurisdictions to identify project elements to increase safe and accessible options for multiple travel modes for people of all ages and abilities.

5.3 Complete Streets

• Maintain complete streets toolbox

5.4 Pedestrian Transportation

- Distribute trail ordinance to member jurisdictions
- Maintain OTO Trail dashboard and work to fill in gaps
- Completion of a safety analysis of bicycle and pedestrian crashes throughout the OTO area
- Develop and maintain pedestrian crash maps

5.5 Van Pool Program

- Research potential for van pool program in area
- Work with possible major employers to see feasibility at employer locations

5.6 Planning and Environment Linkages (PEL)

• Coordinate with Ozark Greenways and other regional planning partners to incorporate PEL in the planning process

Anticipated Outcomes

- Trail ordinance distributed to member jurisdictions
- Trail dashboard update
- Bicycle and Pedestrian Safety Analysis
- Complete Streets Toolbox
- Van Pool Program Development (multi-year process)

|-------------------------------------------------------------------------------|-----------------|
| LESS CPG Funds Programmed for FY 2023 | \$ (925,953) |
| TOTAL Estimated CPG Funds Available for FY 2023 UPWP | \$1,882,386.21 |
| PLUS FY 2023 CPG Expected Allocation** | \$772,615.00 |
| Less Remaining Expenses to be Billed for FY 2022 | (\$5,000.00) |
| OTO CPG Fund Balance as of 6/30/2022 (includes FY 2022 estimated allocation)* | \$1,114,771.21 |

^{*}Previously allocated, but unspent CPG Funds through 1/31/2022.

Justification for Carryover Balance

The projected carryover balance of \$956,432.81 represents more than one year of federal planning funding allocations to OTO. OTO is funded by a combined Federal Highway and Federal Transit grant through the Missouri Department of Transportation. OTO cannot spend full current year allocations due to congressional inaction to fully appropriate annual authorizations for transportation.

TECHNICAL PLANNING COMMITTEE AGENDA 8/17/2022; ITEM II.D.

Carbon Reduction Program and Transportation Alternatives Funding

Ozarks Transportation Organization (Springfield, MO Area MPO)

AGENDA DESCRIPTION:

OTO has additional funding appropriated for transportation alternatives and carbon reduction programs resulting from the IIJA (infrastructure Investment and Jobs Act). This represents a significant amount of funding and there is a timeline for funds to be obligated. The FY 2022 funds would have to be obligated by September 2025, but ideally would be planned for obligation by September 2024.

There are several eligible activities listed below. The OTO Executive Director would like the Board to consider a plan that funds a partnership with MoDOT to construct sidewalks along state routes, as well as sidewalks on city streets and continued investment in trails.

MoDOT has elected to allocate statewide funds to MPOs to be used as needed. This allocation results in MoDOT not having these funds to use on sidewalks on state roads. The Board has already approved funding for Ozark Greenways operations for five years in the amount of \$325,252.

Recommendation:

1) Establish a 50/50 cost share program with MoDOT to add sidewalks to state highways. Start with 25% of available funds to create a partnership with MODOT resulting in decreased local matching requirements.

Example: Sidewalks along a state route \$500,000

OTO Funding \$200,000 Local Match \$50,000 MoDOT Funding \$250,000

- 2) Issue a Request for Information for trail and sidewalk projects in order to develop a plan for spending all funds in the timeline required. This would allow us to estimate how many trail projects can be ready and what phase they are in. Every community would need to respond to the RFI to be considered for funding later.
- 3) Staff would develop a plan for using the remaining funding

EXECUTIVE COMMITTEE ACTION TAKEN:

At its regularly scheduled meeting on August 10, 2022, the Executive Committee recommended that the OTO allocate 25% of the Carbon Reduction and Transportation Alternative Funding through FY 2026 to a cost share program with MoDOT to make sidewalk improvements along state highways."

TECHNICAL PLANNING COMMITTEE ACTION REQUESTED:

A member of the Technical Planning Committee is requested to make one of the following motions:

"Move to recommend that the Board of Directors approve the proposed funding plan for Carbon Reduction and Transportation Alternatives funding."

OR

"Move to recommend that the Board of Directors consider the following..."

Background Information:

Estimated Funding Available:

| (98% OL) | FY 2022 | FY 2023 | FY 2024 | FY 2025 | FY 2026 |
|------------------|----------------|----------------|----------------|----------------|----------------|
| TAP Funding | \$1,503,737.48 | \$1,533,073.40 | \$1,533,577.77 | \$1,534,042.13 | \$1,534,467.81 |
| OTO Allocation | \$829,221.12 | \$845,398.12 | \$845,676.25 | \$845,932.32 | \$846,167.06 |
| MoDOT Allocation | \$674,516.36 | \$687,675.28 | \$687,901.52 | \$688,109.81 | \$688,300.75 |
| CRP Funding | \$887,021.52 | \$960,939.98 | \$960,939.98 | \$960,939.98 | \$960,939.98 |
| Combined Total | \$2,390,759.00 | \$2,494,013.38 | \$2,494,517.75 | \$2,494,982.11 | \$2,495,407.79 |
| TOTAL | | | | | \$12,369,678 |

Eligible Uses:

Carbon reduction funds may be obligated for projects that support the reduction of transportation emissions, including, but not limited to— [except as noted, § 11403; 23 U.S.C. 175(c)(1)]

- a project described in 23 U.S.C. 149(b)(4) to establish or operate a traffic monitoring, management, and control facility or program, including advanced truck stop electrification systems;
- a public transportation project eligible under 23 U.S.C. 142;
- a transportation alternative (as defined under the Moving Ahead for Progress under the 21st Century Act [23 U.S.C. 101(a)(29), as in effect on July 5, 2012]), including, but not limited to, the construction, planning, and design of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation;
- a project described in 23 U.S.C. 503(c)(4)(E) for advanced transportation and congestion management technologies;
- deployment of infrastructure-based **intelligent transportation systems** capital improvements and the installation **of vehicle-to-infrastructure communications equipment**;
- a project to replace street lighting and traffic control devices with energy-efficient alternatives;
- development of a carbon reduction strategy developed by a State per requirements in 23 U.S.C. 175(d);
- a project or strategy designed to support congestion pricing, shifting transportation demand to nonpeak hours or other transportation modes, increasing vehicle occupancy rates, or otherwise reducing demand for roads, including electronic toll collection, and travel demand management strategies and programs;
- efforts to reduce the environmental and community impacts of freight movement;
- a project that supports deployment of alternative fuel vehicles, including—
 - acquisition, installation, or operation of publicly accessible electric vehicle charging infrastructure or hydrogen, natural gas, or propane vehicle fueling infrastructure; and
 - purchase or lease of zero-emission construction equipment and vehicles, including the acquisition, construction, or leasing of required supporting facilities;
- a project described in 23 U.S.C. 149(b)(8) for a diesel engine retrofit;
- certain types of projects to **improve traffic flow** that are eligible under the CMAQ program, and that do not involve construction of new capacity; [§ 11403; 23 U.S.C. 149(b)(5); and 175(c)(1)(L)]

Transportation Alternatives eligible activities: **Section 133(h)(3)(A)**

- (1) Transportation Alternatives as defined in 23 U.S.C. 101(a)(29) as it appeared prior to changes made by the FAST Act: The term "transportation alternatives" means any of the following activities when carried out as part of any program or project authorized or funded under title 23 U.S.C., or as an independent program or project related to surface transportation:
 - (A) Construction, planning, and design of **on-road and off-road trail facilities** for pedestrians, bicyclists, and other nonmotorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).
 - (B) Construction, planning, and design of infrastructure-related projects and systems that will provide safe routes for non-drivers, including children, older adults, and individuals with disabilities to access daily needs.
 - (C) Conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other nonmotorized transportation users.
 - (D) Construction of turnouts, overlooks, and viewing areas.
 - (E) Community improvement activities, including:
 - (i) inventory, control, or removal of outdoor advertising;
 - (ii) historic preservation and rehabilitation of historic transportation facilities;
 - (iii) vegetation management practices in transportation rights-of-way to improve roadway safety, prevent against invasive species, and provide erosion control (see State DOTs Leveraging Alternative Uses of the Highway Right-of-Way Guidance); and
 - (iv) **archaeological activities** relating to impacts from implementation of a transportation project eligible under title 23, U.S.C.
 - (F) Any **environmental mitigation activity**, including pollution prevention and pollution abatement activities and mitigation to:
 - (i) address stormwater management, control, and water pollution prevention or abatement related to highway construction or due to highway runoff (This includes activities described in 23 U.S.C. 119(g), 328(a), and 329.); or
 - (ii) **reduce vehicle-caused wildlife mortality** or to restore and maintain connectivity among terrestrial or aquatic habitats.
- (2) The **recreational trails program** under 23 U.S.C. 206 of title 23. (See the Recreational Trails Program section. Any project eligible under the RTP also is eligible under the TA SetAside.)
- (3) The **safe routes to school program** under section 1404 of the SAFETEA-LU (23 U.S.C. 402 note; Public Law 109-59) [now codified as 23 U.S.C. 208 and including]:
 - Infrastructure-related projects eligible under section 1404(f)(1) [now eligible under 23 U.S.C. 208(g)(1)].
 - Noninfrastructure-related activities eligible under section 1404(f)(2) [(now eligible under 23 U.S.C. 208(g)(2)].
 - SRTS coordinators eligible under section 1404(f)(3) [now eligible under 23 U.S.C. 208(g)(3)].
- (4) Planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.
 - See Boulevards from Divided Highways for examples. Section 133(h)(3)(B): projects and activities under the safe routes to school program under 23 U.S.C. 208.

Section 133(h)(3)(C)

activities in furtherance of a vulnerable road user safety assessment (as defined in 23 U.S.C. 148(a)).

TAB 7

TECHNICAL PLANNING COMMITTEE AGENDA 8/17/2022; ITEM II.E.

North 13 Transportation Study

Ozarks Transportation Organization (Springfield, MO Area MPO)

AGENDA DESCRIPTION:

A copy of the study can be found here -

https://www.ozarkstransportation.org/uploads/documents/2022-08-02_I-44_Route-13-Concept-Report_FINAL.pdf

The North Highway 13 Corridor Study was a partnership between OTO, Springfield, and Greene County to identify needed improvements at the interchange of MO-13 and I-44. Crawford, Murphy, and Tilly (CMT) was contracted to assist in the development of the corridor study. The study area ran from Farm Rd 94, in the north, to Kearney St, in the south. Ultimately, improvements along MO-13 were identified at the I-44 interchange, at Norton Rd, and at Farm Rd 94. The public was involved throughout the corridor study, with surveys, public meetings, and digital comment cards. The preferred alternative for the interchange and Norton Rd includes a southbound to eastbound flyover and the grade separation of Norton Rd at Hwy 13. The conceptual cost for the *Southbound to Eastbound Flyover* option is \$45,876,000.

Public Involvement

The public was involved throughout the corridor study. A meeting with elected officials and community leaders was held on November 5, 2021 and a public meeting was held on the evening of November 17, 2021, both at the Library Station. At these initial meetings, the project team learned about existing congestion, safety issues and the many ways residents were currently avoiding the MO-13 corridor. Stakeholder meetings were also held with the Dickerson Park Zoo, the Paul Mueller Company, and the Ozark Empire Fair early in the corridor study. Once design alternatives were developed, a in-person and a virtual public meeting was during the weeks March 7 – March 21. A final stakeholder meeting was held with the Paul Mueller Company on April 22, 2022.

Design Alternatives

A total of five design alternatives were developed for the MO-13/I-44 interchange and two were developed for Farm Rd 94. Three of the interchange improvements were smaller scale that focused on the interchange itself, with only minor modifications to Norton Rd. Two of the alternatives were more comprehensive in nature, including significant changes to how the MO-13 and the interchanged operated. The two alternatives at Farm Rd 94 included a J-Turn and a Right-In/Right-Out design.

The two comprehensive alternatives included the *Park Street Interchange* and the *Southbound to Eastbound Flyover*. The Park Street Interchange design included the construction of approximately 1 mile of new a freeway standard road, a new interchange west of the existing bridge, and a series of collector/distributor roads to connect both interchanges to I-44. This option was estimated to cost approximately \$55,410,000. The *Southbound to Eastbound Flyover* design included a flyover for SB to EB traffic and a pair of roundabouts and new underpass along Norton Road to allow for grade separation. This option was estimated to cost approximately \$45,876,000. These two designs were the most popular alternatives.

Preferred Alternatives

The project team selected the *Southbound to Eastbound Flyover* as its preferred alternative for the interchage at MO-13 and I-44. This option provided the best long term performance, allowed for a phased implementation, and had a lower estimated cost. The *Southbound to Eastbound Flyover* also maintains pedestrian connectivity to SB and NB MO-13 and includes new sidewalk connections under MO-13 to connect development on either side of MO-13. This design could be divided into four phases:

- Flyover and Norton Grade Separation
- WB Off-Ramp Improvements
- Conversion of DDI to Traditional Diamond
- EB Off-Ramp Improvement.

Some funding has been programed for these improvements in FY 2026. Additional refinements will be needed to determine appropriate sizing of the roundabouts or if signalized intersections would be more appropriate. Below is a rendering of the *Southbound to Eastbound Flyover* concept.

TECHNICAL PLANNING COMMITTEE ACTION REQUESTED:

A member of the Technical Planning Committee is requested to make one of the following motions:

"Move to recommend that the Board of Directors accept the North Hwy 13 Corridor Study."

OR

"Move to recommend the Board of Directors accept the North Hwy 13 Corridor Study, with these changes..."

TAB 8

August 10, 2022

11:50 am » Nolen: FAA Seeks to be 'Gateway, not Hurdle' for AAM

The U.S. Department of Transportation and Department of Energy announced on August 2 that all 50 states, the District of Columbia, and Puerto Rico submitted electric vehicle or EV infrastructure deployment plans required to unlock the first round of \$5 billion in formula funding provided through the \$1.2 trillion Infrastructure Investment and Jobs Act or IIJA.

[Above photo by the Oregon DOT]

That infrastructure funding – available over the next five years via the National Electric Vehicle Infrastructure or NEVI formula program (https://aashtojournal.org/2022/02/11/usdot-doe-launch-evinfrastructure-formula-program/) created by the IIJA – will help states build out a national charging network that is critical for the adoption of EVs on a wider basis, explained USDOT Secretary Pete Buttigieg.

"We appreciate the thought and time that states have put into these EV infrastructure plans, which will help create a national charging network where finding a charge is as easy as locating a gas station," he said in a statement (https://highways.dot.gov/newsroom/biden-harris-administration-announces-all-50-states-dc-and-puerto-rico-have-submitted). "We will continue to work closely with all 50 states, D.C. and Puerto Rico to ensure EV chargers across the country are convenient, affordable, reliable and accessible for all Americans."

"It's pretty incredible that, in just 10 months since the IIJA was signed into law, states developed and submitted these detailed EV charging network plans," noted Jim Tymon, executive director of the American Association of State Highway and Transportation Officials.

"Understanding all the infrastructure work involved and figuring out who to partner with from both a publicand private-sector perspective took a lot of work," he said. "States worked with each other as well, sharing insights and expertise across a range of areas. We have

Jim Tymon. Photo by AASHTO.

to remember that some states were nearly starting from scratch when it came to developing their EV plans."

The USDOT and DOE are coordinating their EV support efforts through the Joint Office of Energy and Transportation, which – in coordination with the Federal Highway Administration – will review those state plans, with the goal of approving them by September 30.

Once approved, state departments of transportation will be able to use NEVI formula program funds to build out EV charging infrastructure in their respective areas.

Those efforts dovetail with a memorandum of understanding (https://aashtonews.wpengine.com/wp-content/uploads/2022/02/NASEO-AASHTO-JOET-NEVI-MOU-Signed-Final.pdf) or MOU signed in February (https://aashtojournal.org/2022/02/25/mou-seeks-to-expand-national-ev-charging-network/) between AASHTO, the National Association of State Energy Officials, USDOT, and DOE to coordinate nationwide investment in EV charging station infrastructure.

Photo by the Oregon DOT

"Many state DOT's have found success in their own EV charging infrastructure programs and know first-hand that collaboration between state energy offices and other agencies is instrumental to success," noted AASHTO's Tymon regarding that MOU.

In line with that agreement, the Joint Office of Energy and Transportation issued \$1.5 million to AASHTO and NASEO in late July

(https://content.govdelivery.com/accounts/USEERE/bulletins/323dbcd?reqfrom=share/) to help coordinate EV infrastructure deployment at the state level. That funding will allow AASHTO and NASEO to update and expand the content on the EV Clearinghouse (https://aashtojournal.org/2022/03/25/aashto-helps-launch-ev-states-clearinghouse/) website created for state agencies, while also:

Developing peer exchanges and regional dialogues to build capacity, lift up best practices, and ensure coordination across a national EV charging network that also reflects local needs.

Identifying and providing data, technical, and programmatic assistance needs to develop, implement, and refine state EV charging plans.

Enhancing communication between state and federal agencies to enable effective, coordinated and timely EV charging planning and implementation.

August 10, 2022

11:50 am » Nolen: FAA Seeks to be 'Gateway, not Hurdle' for AAM

The Federal Highway Administration issued guidance (https://www.fhwa.dot.gov/bipartisan-infrastructure-law/protect_fact_sheet.cfm) on July 29 for a new \$7.3 billion formula funding program created by the \$1.2 trillion Infrastructure Investment and Jobs Act or IIJA enacted in November 2021 (https://aashtojournal.org/2021/11/19/biden-signs-infrastructure-bill-outlines-implementation-priorities/) to help states and local communities better prepare for and respond to extreme weather events such as wildfires and flooding.

[Above photo by the KYTC]

The Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation or "PROTECT" program provides funding over five years to help states focus on resilience planning, making resilience improvements to existing transportation assets and evacuation routes, and addressing at-risk highway infrastructure.

^

In general, eligible projects include highway and transit projects, bicycle and pedestrian facilities, and port facilities including those that help improve evacuations or disaster relief.

States are encouraged to work with regional and local partner organizations to prioritize transportation and emergency response improvements, as well as address vulnerabilities, noted Stephanie Pollack, deputy administrator for the Federal Highway Administration.

Photo by the KYTC

"We see the effects of climate change and extreme weather play out across the country every week, with extreme temperatures and rainfall and resulting flooding and wildfires that damage and in some cases destroy roads, bridges and other transportation infrastructure," she said in a statement (https://highways.dot.gov/newsroom/bidenadministration-announces-new-protect-formula-program-73-billion-bipartisan).

Stephanie Pollack. Photo by the FHWA.

"The PROTECT formula program will help make transportation infrastructure more resilient to current and future weather events and at the same time make communities safer during these events," Pollack added.

FHWA said eligible resilience improvements could involve adapting existing transportation infrastructure or new construction to keep communities safe by bolstering infrastructure's ability to withstand extreme weather events and other physical hazards that are becoming more common and intense.

Eligible project choices may include the use of natural or green infrastructure that acts as a "buffer" against future storm surges and provide flood protection, as well as aquatic ecosystem

restoration.

PROTECT projects can also help improve the resilience of transportation networks that serve traditionally underserved and underrepresented communities, particularly during natural disasters and evacuations, the agency noted.

FHWA added that its new guidance applies to the PROTECT formula program only, with the agency planning to release a notice of funding opportunity for the program's discretionary grant initiative later this year.

State departments of transportation consider formula funding to be a critical aspect of national efforts to improve infrastructure resiliency.

Edwin Sniffen, deputy director of highways for the Hawaii Department of Transportation, highlighted that viewpoint in a Senate Committee on Appropriations hearing in May 2021 (https://aashtojournal.org/2021/05/21/hawaii-dots-sniffenformula-funding-critical-for-resilience-efforts/).

Sniffen – who also serves as chair of the American Association of State Highway and Transportation Officials Committee on Transportation System Security and Resilience – said that traditional formula funding processes play a key role helping states implement resiliency plans.

"When considering funding for resilience, the current core formula program eligibility could be expanded to consider

Hawaii DOT's Ed Sniffen

resilience improvements," he said. "Or formula funding could be set aside to focus on resilience-related planning, coordination, and evacuation; or, a discretionary grant program for adaptation strategies could be established."

Sniffen added that additional funding and an expedited project delivery process would "greatly aid" getting more resilience initiatives out of the theoretical stages and into practice on the nation's streets, bridges, runways, and harbors.

"The Hawaii DOT is currently approaching building resilience into our systems using a variety of approaches, including pursuing green infrastructure such as carbon mineralized concrete and adding recycled plastics to asphalt mixes," he noted. "Investing in resilient infrastructure on a federal level

will enable us and other transportation agencies to implement better and greener infrastructure."

11:52 am » Video: Implementing Equity in the Transportation Industry

An agreement on new federal "reconciliation" legislation unveiled by Senate Majority Leader Chuck Schumer, D-NY, (seen above at right) and Sen. Joe Manchin, D-W. Va., (seen above at left) includes several climate and transportation-related funding measures, with a series of proposed grants and tax credits aimed at boosting equity, alternative vehicle purchases, and environmental review processes for infrastructure projects.

[Above photo by AASHTO]

The 725-page bill – entitled the "Inflation Reduction Act of 2022 (https://www.democrats.senate.gov/imo/media/doc/inflation_reduction_act_of_2022.pdf)" - expects to generate \$739 billion over 10 years through a combination of corporate tax increases, increased enforcement by the Internal Revenue Service, and drug pricing reform measures.

The legislation

(https://www.democrats.senate.gov/imo/media/doc/inflation_reduction_act_one_page_summary.pdf) proposes to invest \$369 billion of those funds in energy and climate change-related measures along with \$64 billion to extend Affordable Care Act premium subsidies. An estimated \$300 billion of the measure's funding would go towards federal deficit reduction.

The bill as currently proposed will first be reviewed the Senate's parliamentarian to conform with budget reconciliation legislation requirements – the so-called "Byrd Rule (https://archives-democrats-

rules.house.gov/archives/byrd_rule.htm#:~:text=The%20Byrd%20rule%20is%20enforced,vote%20to%20waive%20the%20rule.)," named after the late Sen. Robert Byrd, D-W. Va. – and could be voted on by the Senate next week, with the House following suit shortly thereafter.

Key elements of the bill of interest to state departments of transportation starts on page 699 of the proposed bill text:

Section 60501: Neighborhood Access and Equity Grant Program. The entire program receives \$3 billion for its various initiatives. It provides \$1.893 billion at 80 percent federal share to "improve walkability, safety, and affordable transportation access through construction of projects that are context-sensitive" including removal of facilities similar to the Reconnecting Communities Pilot Program (https://www.transportation.gov/grants/reconnecting-communities) within the \$1.2 trillion Infrastructure Investment and Jobs Act or IIJA enacted in November 2021. It also provides \$1.11 billion at 100 percent federal share for similar activities as above, but specifically to economically disadvantaged communities with a community benefits agreement, anti-displacement policy, and local hiring plan, along with \$42 million for technical assistance from the Federal Highway Administration. A key factor in this section is that funding cannot be used for "a project for additional through travel lanes for single-occupant passenger vehicles."

<u>Section 60505: Environmental Review Implementation Funds</u>. Provides \$100 million "for the purpose of facilitating the development and review of documents for the environmental review process for proposed projects" such as guidance, technical assistance, templates, training, or tools to facilitate an efficient and effective environmental review process for surface transportation projects. That includes any FHWA administrative expenses to conduct such activities. That funding also aims to build capacity of eligible entities and facilitate the environmental review process for proposed projects, including administrative expenses.

<u>Section 60506: Low-carbon Transportation Materials Grants</u>. Provides \$2 billion "to reimburse or provide incentives to eligible recipients for the use of low-embodied carbon construction materials and products in projects," including FHWA administrative expenses. FHWA may also reimburse non-federal partners for the increased incremental cost of using low-carbon material relative to traditional materials as well as provide an incentive payment of two percent of the cost of using low-carbon materials. However, the reimbursement or incentive cannot cause the federal share to exceed 100 percent and, again, disallows funding for "projects that result in additional through travel lanes for single occupant passenger vehicles."

Several sections of the proposed bill also bump up fiscal support for alternative vehicles, such as:

Section 13401: Clean Vehicle Credit (Page 366)

Section 40007: Alternative Fuel and Low-emission Aviation Technology Program (Page 566)

Section 60101: Clean Heavy-duty Vehicles (Page 650)

Section 60102: Grants to Reduce Air Pollution at Ports (Page 653)
