

# FY 2020 Annual Listing of Obligated Projects

OZARKS TRANSPORTATION ORGANIZATION  
A METROPOLITAN PLANNING ORGANIZATION

# Introduction

Each year, the Ozarks Transportation Organization develops a list of all funding obligated during the preceding federal fiscal year, October 1, 2019 through September 30, 2020. This is known as the Annual Listing of Obligated Projects (ALOP). An obligation is a commitment of the federal government's promise to pay for the federal share of a project's eligible cost. This commitment occurs when the project is approved and the project agreement is executed. Obligation is a key step in financing and obligated funds are considered "used" even though no cash is transferred.

## Annual Listing of Obligated Projects (ALOP)

The ALOP is a requirement of metropolitan planning areas, per § 450.334:

- (a) In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO(s) shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.
- (b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.
- (c) The listing shall be published or otherwise made available in accordance with the MPO(s) public participation criteria for the TIP.

## TIP (Transportation Improvement Program)

The TIP is a financially constrained four-year program outlining the most immediate implementation priorities for area transportation projects, carrying out the goals and vision of *Transportation 2040*, the OTO's long range transportation plan. It serves to allocate limited financial resources among the various transportation needs of the community and to program the expenditure of federal, state, and local transportation funds. In order to receive federal highway or transit funds, a project must be included in the TIP. The TIP is developed through a collaborative process in which each jurisdiction or federal recipient of transportation funds is given the opportunity to submit projects to be considered for placement in the TIP. No project can receive federal funds unless it appears in the TIP.

## Ozarks Transportation Organization (OTO)

The Ozarks Transportation Organization (OTO) is the designated Metropolitan Planning Organization for the Springfield, Missouri Urbanized Area. Metropolitan planning organizations serve to conduct and lead a continuing, cooperative, and comprehensive transportation planning process. In an effort to make the transportation planning process cooperative and collaborative, elected officials from jurisdictions within the urban area and major transportation providers are members of the Ozarks Transportation Organization. The mission of the OTO is to provide a forum for cooperative decision-making in support of an excellent regional transportation system.

## The Report

As stated in federal law, the ALOP has a number of required elements. Below is an explanation of each column included in the report.

### PROJECT NO

This is the Federal Number assigned to a project when it is entered into the federal financial management system.

### JOB NO

This is an ID assigned by MoDOT (Missouri Department of Transportation) for tracking of projects at the state level.

### PROJECT DESCRIPTION

Contains a brief description of the project.

### COUNTY

County where project is to take place.

### SPONSOR

This references the agency responsible for implementing the project.

### TIP NUMBER

The OTO assigns each project a unique identifier to track it through the local process. This number is often assigned before the state and federal IDs are known.

### TIP YEARS

The TIP is developed annually with a four-year time horizon. This column indicates each edition of the TIP where the project appears. An additional qualifier, like "A1" or "AM2," indicates if the project was part of an amendment or administrative modification to the TIP.

### PROGRAMMED YEAR

This lists the actual years when funding was planned to be obligated for the project. The (AC) appearing after certain years indicates the expected year of advance construction conversion. MoDOT uses a federal funding tool called advance construction to maximize the receipt of federal funds and provide greater flexibility/efficiency in matching federal-aid categories to individual projects. Advance Construction (AC) is an innovative finance funding technique, which allows states to initiate a project using non-federal funds, while preserving eligibility for future federal-aid. AC does not provide additional federal funding, but simply changes the timing of receipts by allowing states to construct projects with state or local money and then later seek federal-aid reimbursement.

### PREVIOUSLY PROGRAMMED FEDERAL FUNDS

These are the funds that were scheduled to be obligated during or prior to federal fiscal year 2020.

### FUTURE PROGRAMMED FEDERAL FUNDS

These are funds that are estimated to be obligated after federal fiscal year 2020.

## PROGRAM CODE

The program code is associated with the category of federal funding that was obligated for the project. The program code changes with each surface transportation bill and extension. A search of this document (<http://www.fhwa.dot.gov/federalaid/projects.cfm>) will provide information on the source of funding for each program code. As a quick reference, the first letter in the code is related to a particular surface transportation bill. Funding from the FAST Act, the most recent bill, starts with the letter “Z,” MAP-21, starts with the letter “M,” while funding that starts with the letter “L” is from SAFETEA-LU. Some funding is still shown for some older projects as having come from TEA-21 (Q) and from an extension of TEA-21 (H). To learn more about the current surface transportation bill, the FAST Act, click here - <http://www.fhwa.dot.gov/fastact/>. The U.S. DOT website is a good source of information on federal funding programs.

## TRANSACTION DATE

This is the date that funding was obligated during the 2020 federal fiscal year.

## FEDERAL FUNDING CHANGE

This is the amount of money either obligated or de-obligated during the 2020 federal fiscal year. Values shown in the positive are obligations and values shown in the (negative) are de-obligations. Funding is often de-obligated at the end of a project if costs were less than expected. Zero values may be shown for projects that were newly created or closed out in FY 2020, even if funding itself was not obligated.

## PREVIOUS ALOP(S) FUNDING CHANGE

This shows all obligations prior to the 2020 federal fiscal year. Current and past funding changes are shown by Program Code.

## REMAINING FUTURE FEDERAL FUNDS

This shows how much money is left to obligate based on the amount of funding programmed in the OTO Transportation Improvement Program. If the project is complete, the amount is left at \$0.00, which is also the case when the obligated amount has maxed the available programmed funding. Generally, this number is determined by subtracting all obligated funding from all programmed funds, regardless of the year in which funding was programmed.
