Comment:

How about a sidewalk /bike path and bus stop down to lone pine at east republic road from south Glenstone.

Reply:

Thank you for your input on transportation in the Springfield region. Currently, our only opportunity for an additional bus stop in that area would be along S. Glenstone at the new Luster/Independence Road relocation. We have forwarded this request to City Utilities and they will review that location for a future stop.

Currently, we do not have any plans for trail or sidewalk along Republic Road between Luster and Lone Pine, but a sidepath along Galloway has been considered. Though that connection has been identified as a need, neither a proposed construction date nor funding source has been determined at this time.

Please continue to let us know if you have feedback on transportation in the Springfield region. Thank you again for your input.
