

March 31, 2022

The Honorable Pete Buttigieg  
Secretary of Transportation  
U.S. Department of Transportation  
1200 New Jersey Avenue, SE  
Washington, D.C. 20590

Dear Secretary, Buttigieg:

I am writing to express our support for Highway MM: Corridor of Opportunity grant through the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) discretionary grant program. The project will increase safety and economic vitality along the corridor with capacity expansion and at-grade railroad crossing closures.

The proposed project will provide for safer community connectivity by closing two at-grade railroad crossings, building a new road alignment with an overpass over the BNSF railroad, providing a trail for bicycle and pedestrians, and turning a two-lane planned arterial into a five-lane corridor. The improvement will deliver the ability to manage the growing truck and commuter traffic along the corridor that connects Interstate 44 to multiple other major highways including US Highway 60.

The City of Republic is one of the fastest growing regions in the state. Highway MM serves as primary route to the Springfield-Branson National Airport as well as the Wilson's Creek National Battlefield.

As a real estate developer, I see the demand from various companies wanting to locate to this area. These companies want to hire hundreds of workers for their respective businesses and safe roadways are a must.

We appreciate your consideration and attention to this matter and look forward to an improved transportation network that will allow the region to continue to grow in a safe, planned manner to bring connectivity and opportunity to all residents.

Sincerely,

Tom Rankin
